

Sustainability at Stirling

Gavin Lee

A whole campus-approach

“Sustainability is embedded in everything we do, whether that is teaching and research or the services we offer staff and students.”

The Stirling Project

A multi-faceted project which encapsulates all the University of Stirling is:

- Health and wellbeing
- Environmental sustainability

Sustainability Project 2016/17

A project led by an Ambitious Futures Graduate Trainee to overhaul sustainability at Stirling:

- Assessing the sustainability of Stirling – benchmarking and measures
- Enhancing recognition for Stirling
- Improving communication and support
- Enabling reporting and regulations
