

Net-Works™ Turning Waste into Opportunity

Net-Works empowers developing-world communities

Replenishing the ocean, by turning
marine waste into opportunity.

Net-Works is a blueprint for
a new generation of business

Environmentally restorative, socially inclusive
and commercially viable.

Net-Works **works**. Now it's time to **scale up**.

By 2020 we will have:

- Provided access to finance for over 10,000
- Created a healthier environment for 1 million people
- Protected 1 billion square meters of ocean

Net-Works™

Turning Waste into Opportunity

“What are you doing about
the environment?”

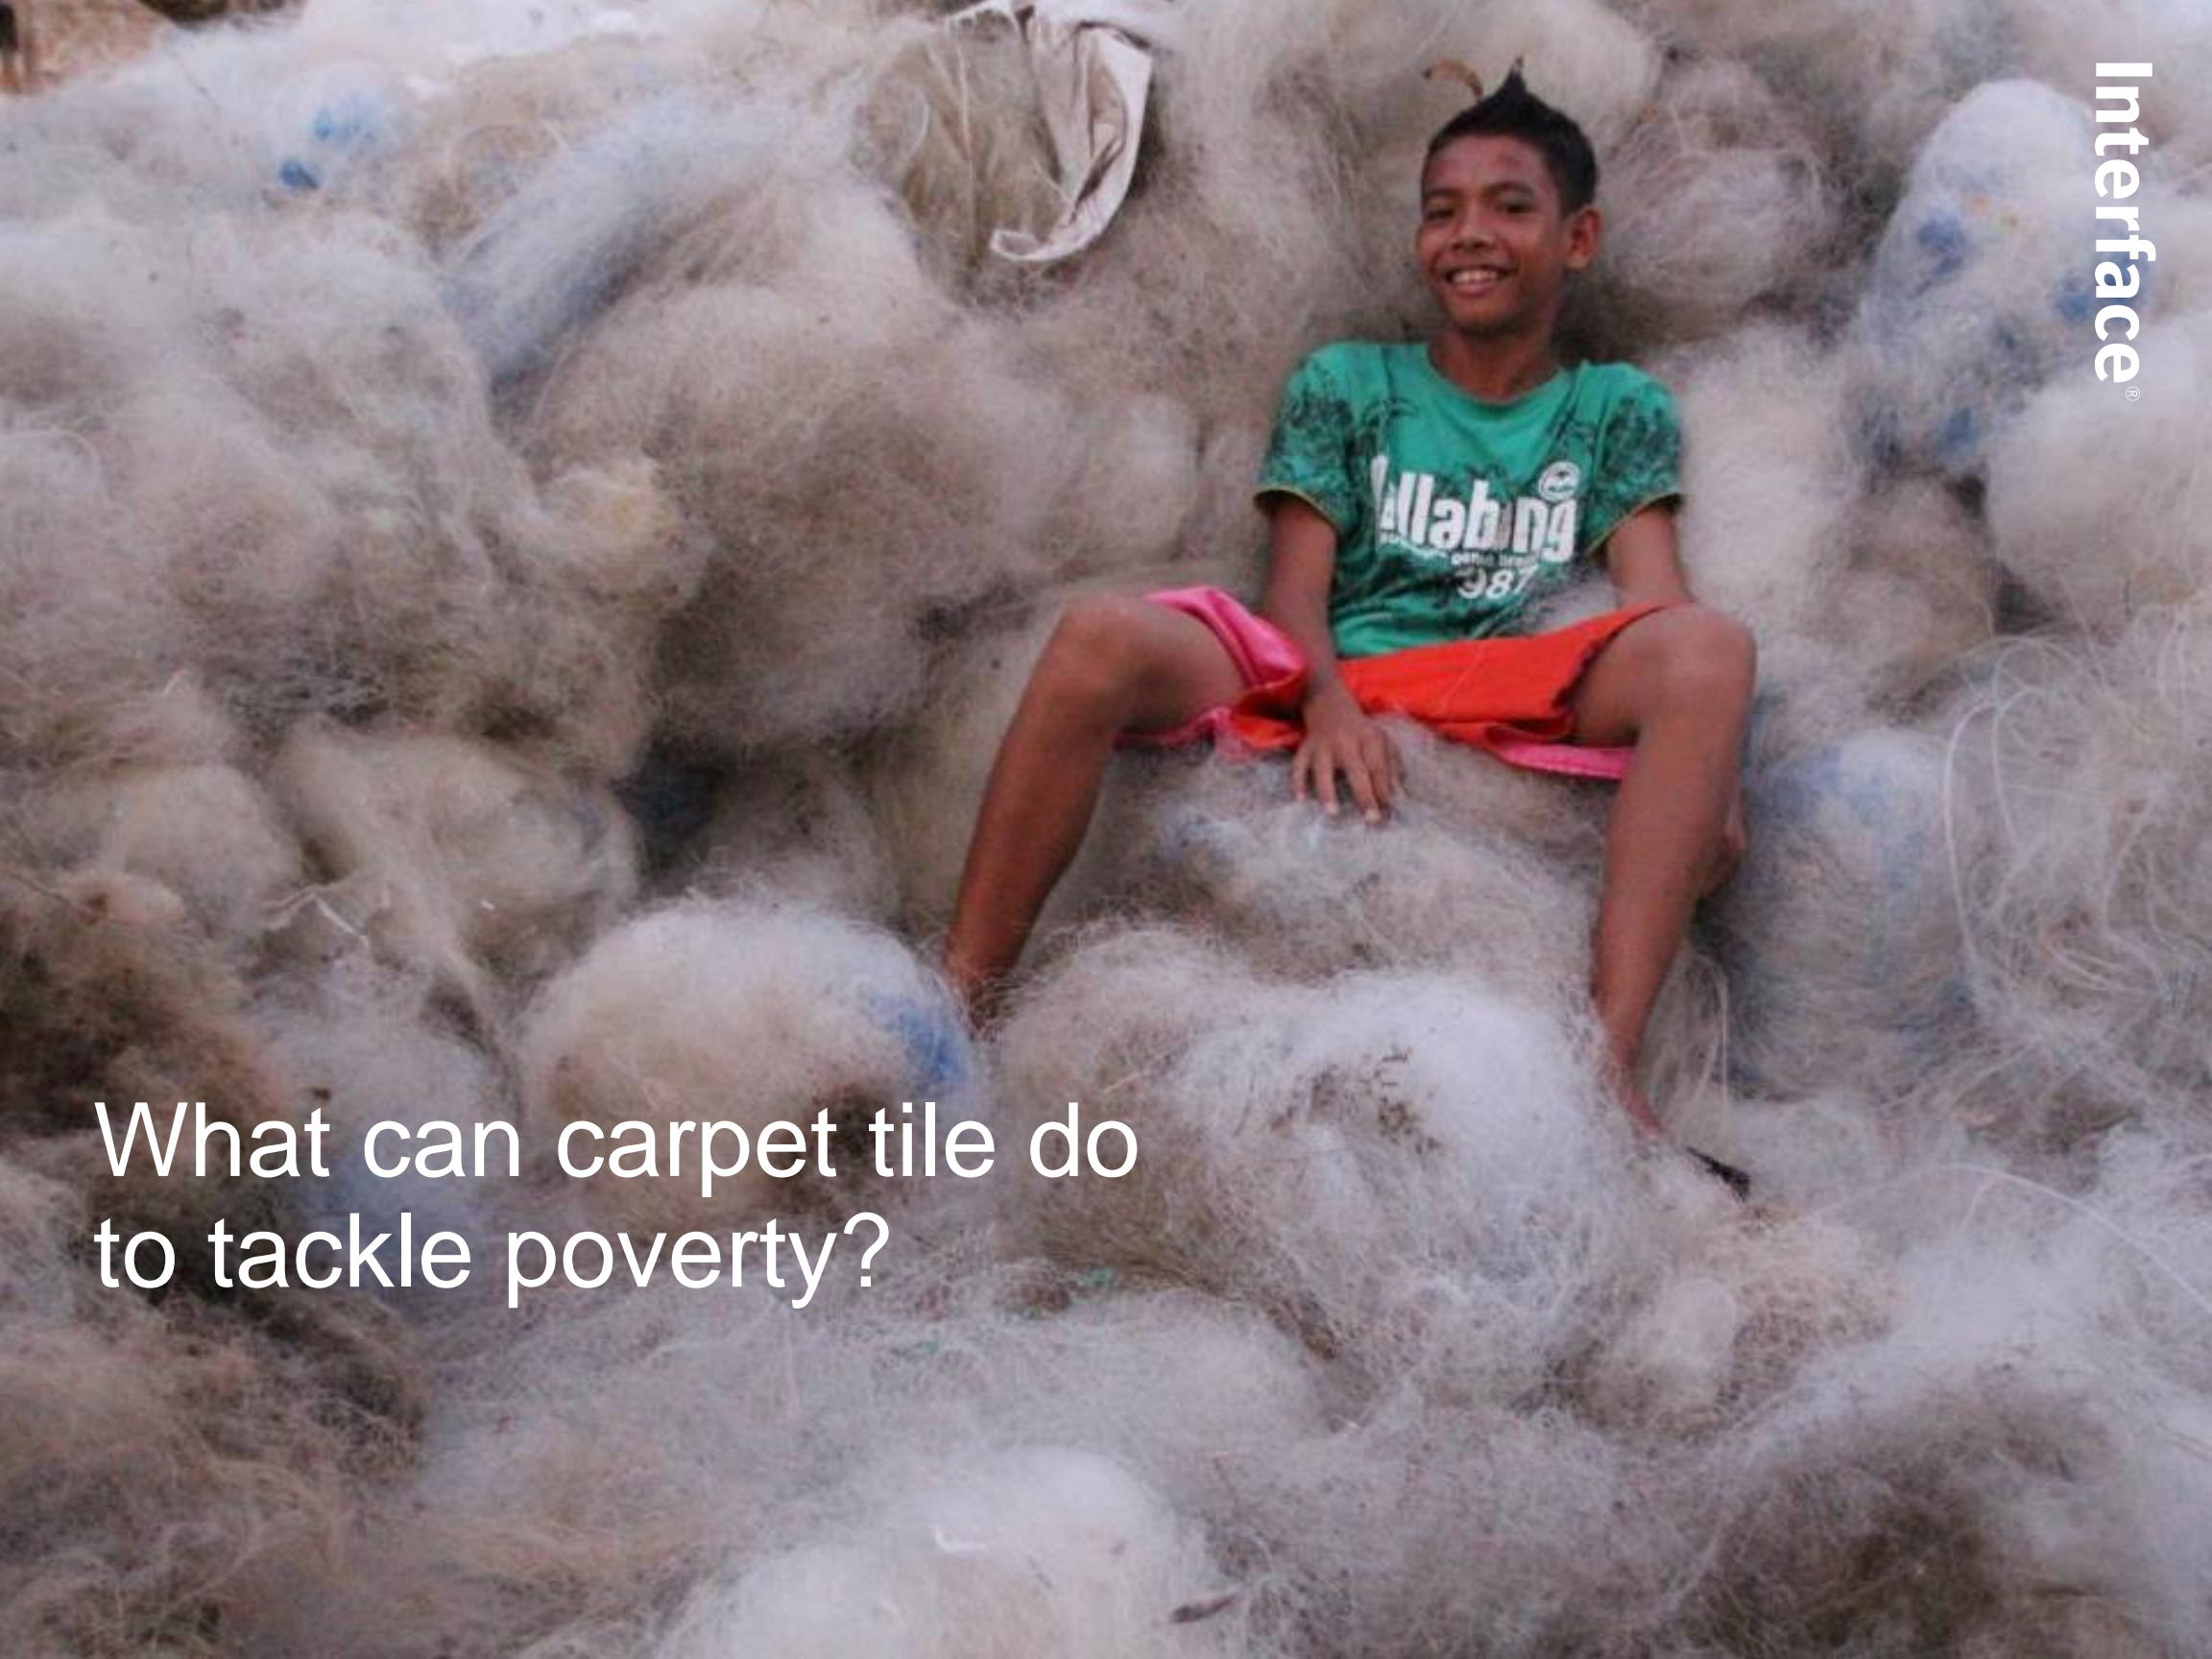

Mission Zero

Our promise to eliminate any negative impact our company may have on the environment by the year 2020.

What can carpet tile do
to tackle poverty?

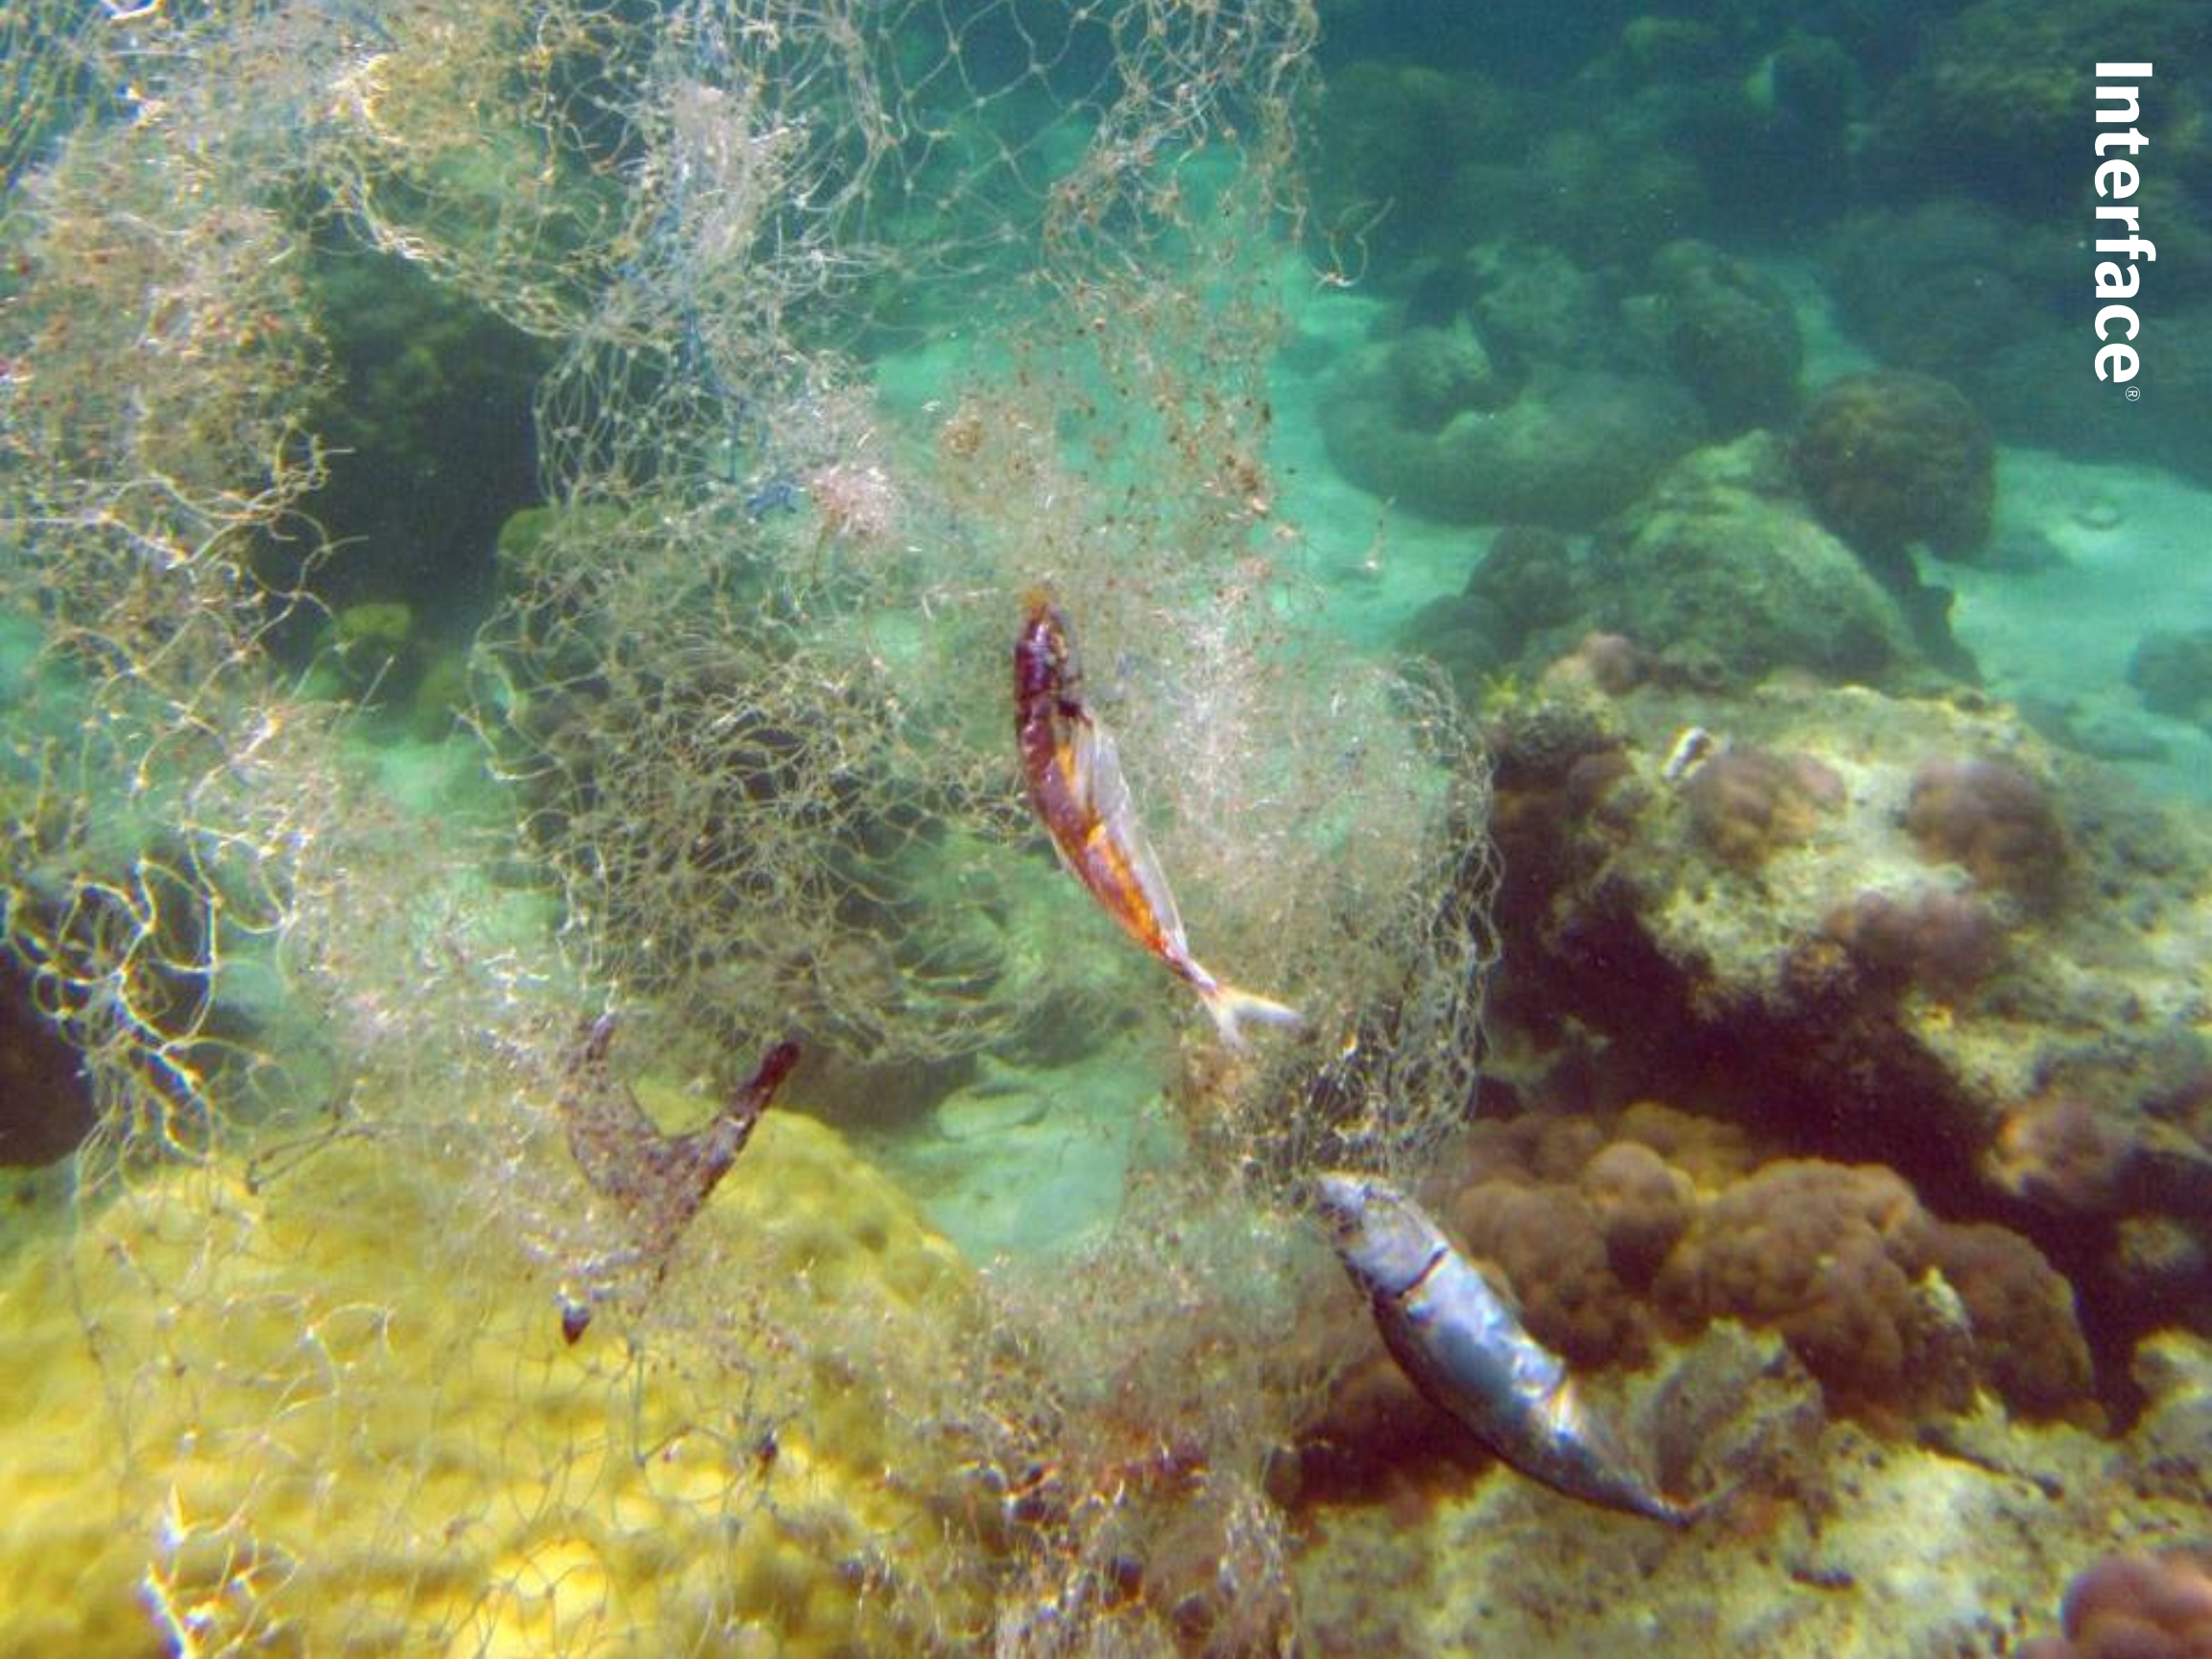

Business can play a key role
to drive positive change

The challenge of
marine plastic waste

What is the common thread between
fishing nets, communities and carpet?

Making waste beautiful—
turning nets into carpet

LET'S WORK
FOR WILDLIFE

The four ways Net-Works works:

1. Waste becomes wealth

The four ways Net-Works works:

2. Access to a mainstream supply chain

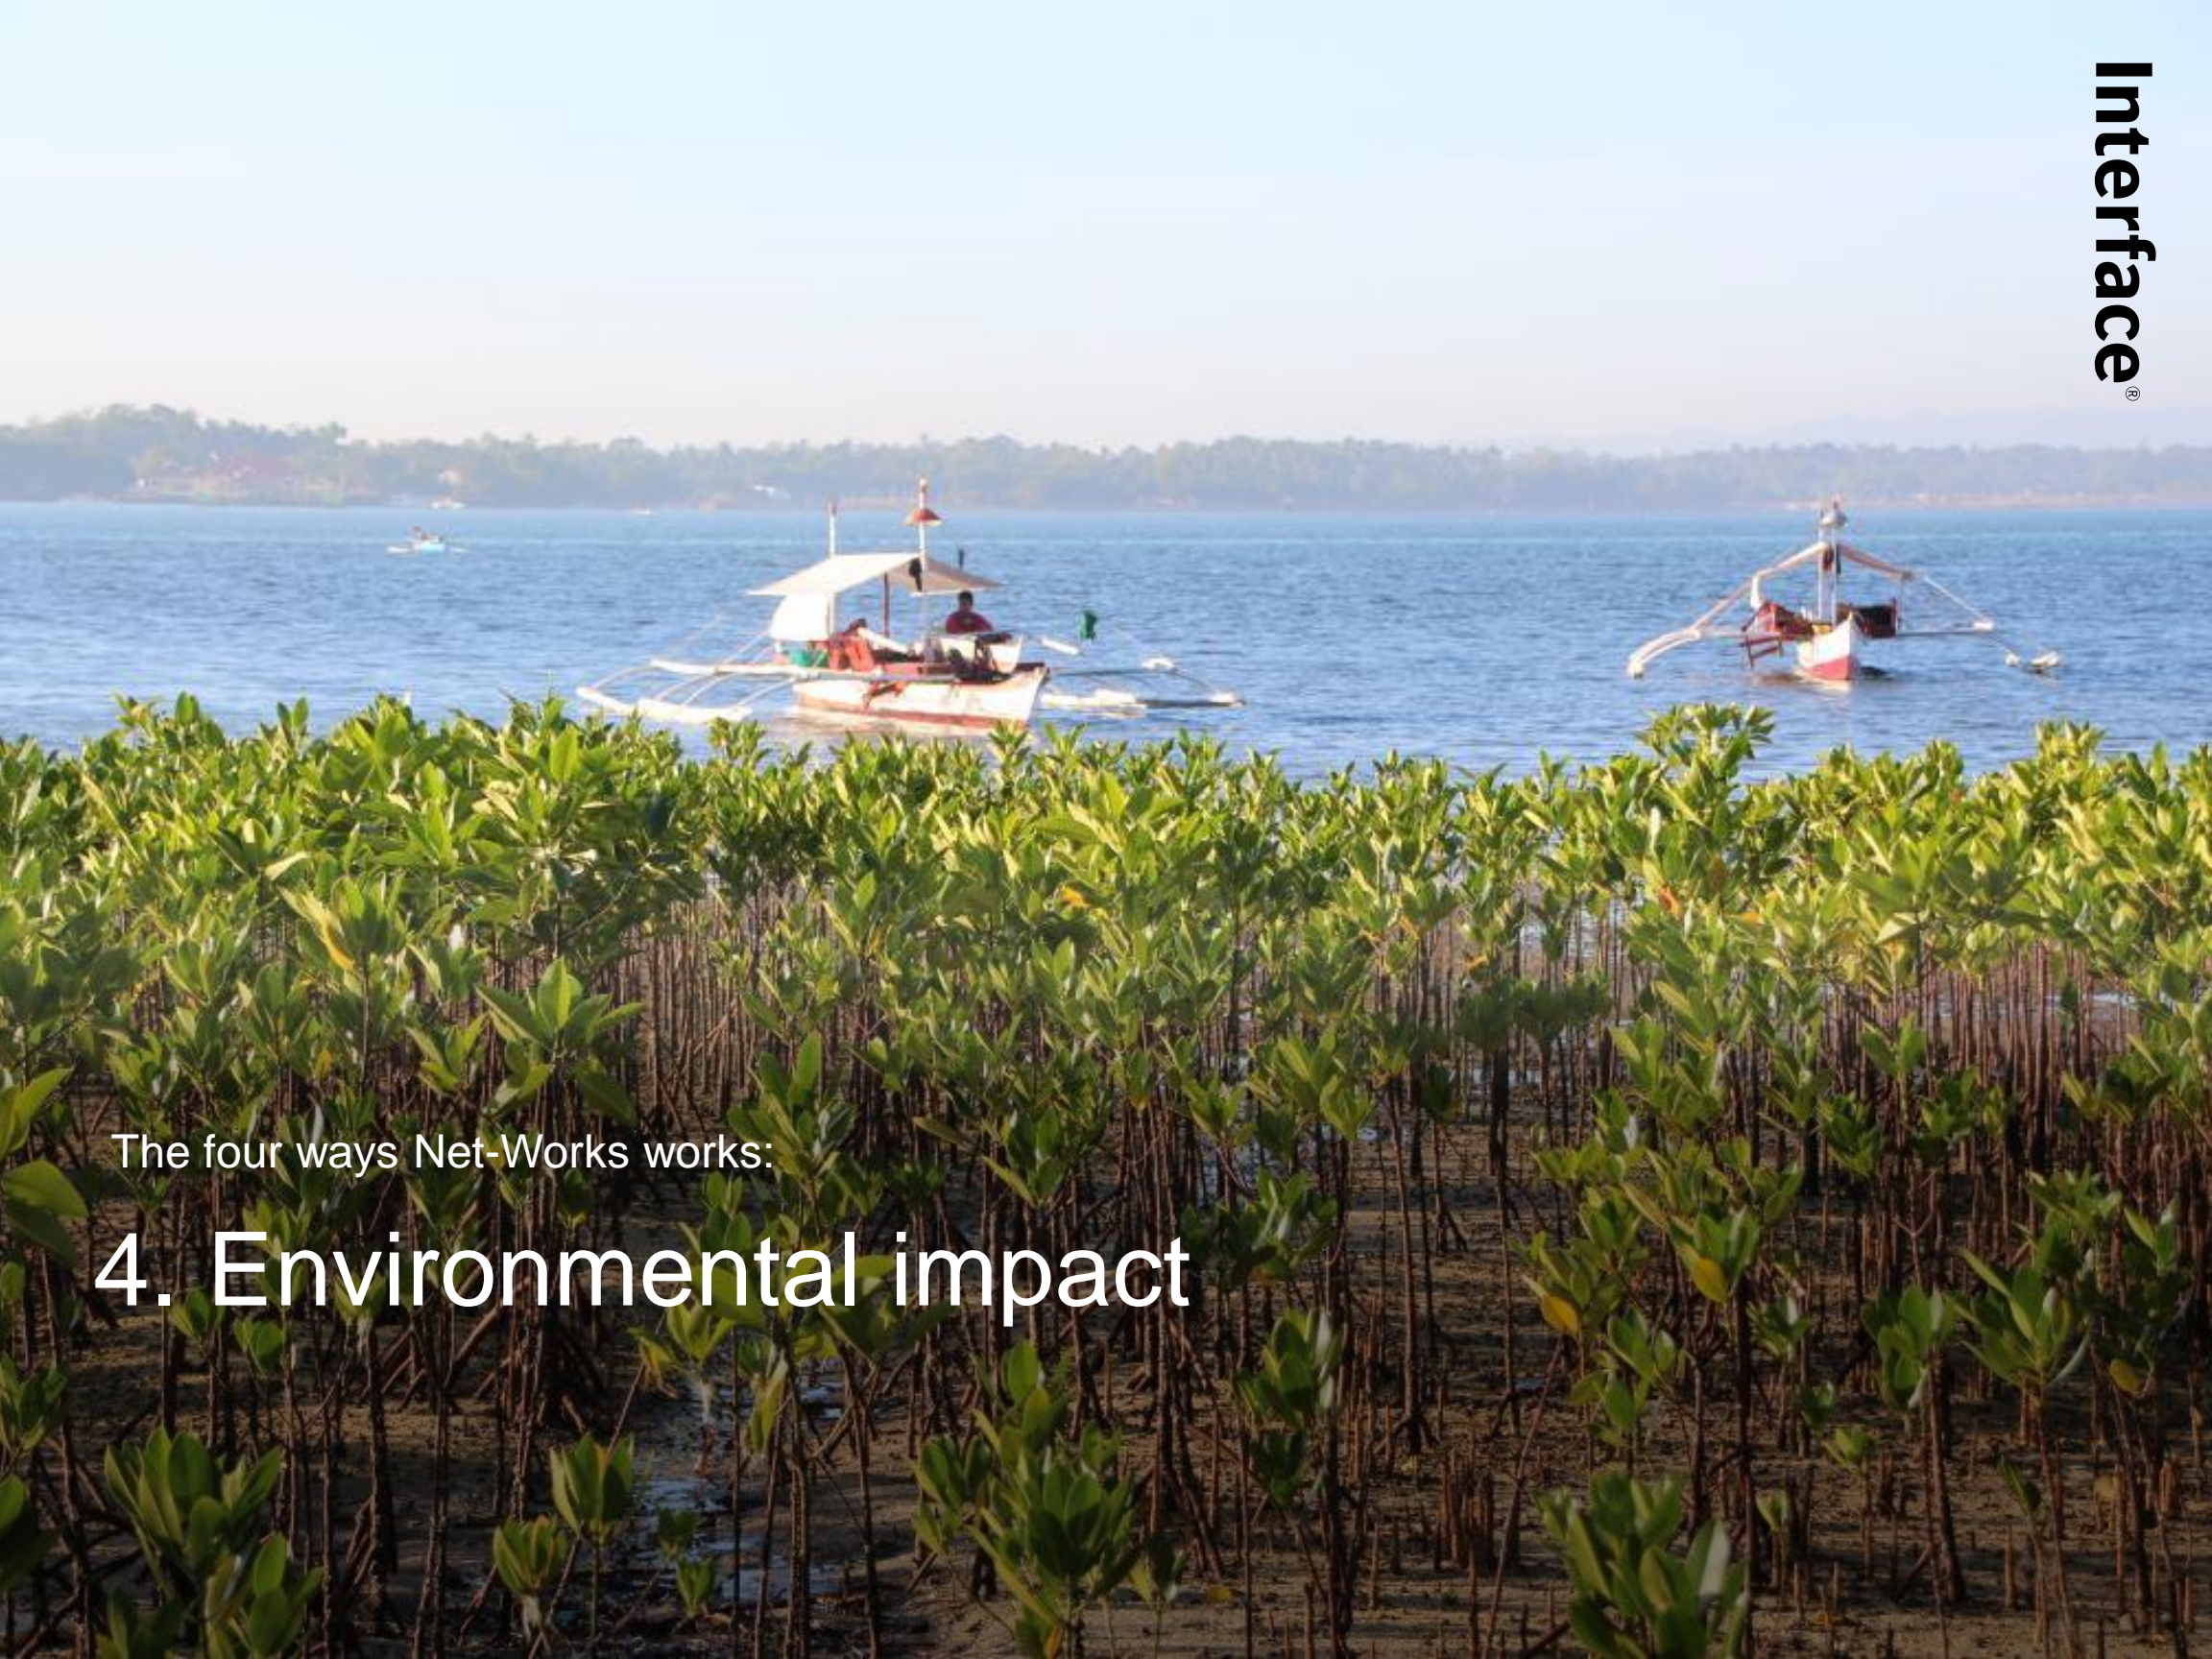

The four ways Net-Works works:

3. Community empowerment

The four ways Net-Works works:

4. Environmental impact

What we've accomplished

Over **900 families**
now have access
to finance

Expansion:
Philippines,
Cameroon &
beyond

Over **125T**
collected to date

Our goals by 2020

10,000 provided
with banking

A better
marine
environment
for 1 million

Protect 1bn sqm
of oceans and
coastlines

A photograph of a modern interior space. On the left, a wooden chair with a white seat cushion is positioned. In the center, two tall stacks of books are placed on a light-colored, textured carpet. To the right of the books, a white spherical floor lamp with a brass-colored base is visible. The background features a large window with a white frame, looking out onto a bright, overcast sky. The overall aesthetic is clean and minimalist.

Sustainable solutions must
make business sense

Power of collaboration and partnership

AQUAFIL 
synthetic fibres and polymers

A photograph showing a long, neat row of large, colorful fertilizer bags (red, blue, orange, green, and yellow) lined up against a bamboo fence. The bags are filled with a white powdery substance. The scene is outdoors, with lush green trees and foliage in the background. The ground is a dirt path. The text "Build to scale and replicate" is overlaid in white at the bottom left.

Build to scale and replicate

Net-Works works

- A win for **business**
- A win for **people**
- A win for the **environment**

Thank you!
