CONTRACT VALUE £900k

PROJECT DURATION 72 weeks 2007/2008

PROJECT SCOPE

The project comprised design and build of an insulated aluminium rainscreen and replacement windows. Additional works undertaken included curtain walling to the principal staircase and concrete repairs prior to overcladding.

Client Testimonial

The overcladding specialists were an integral part of a partnering contract arrangement with sectional delivery. Adherence to the programme maximising activities within specific periods was key and successfully delivered. Pete Hillyard and his team embraced the partnering ethic and their contribution was a key factor in scheme delivery on time and on budget.
