

Realigning Curricula for the Future

Retrofit Best Practice and Network

3rd October 2023

Convenors: Kathrin Möbius & Cara Jenkinson

Aims of today

- Evaluate the need for a network among retrofit teaching institutions, organisations, and practitioners
- Showcase some emerging best practice around Retrofit Teaching and setting up courses
- Ask questions, discuss, and connect with others

Agenda

12:00 Introductions

12:10 Co-creating a Retrofit Teaching Network

12:25 Borders College example

12:35 NPTC Group example

12:45 Leeds College of Building example

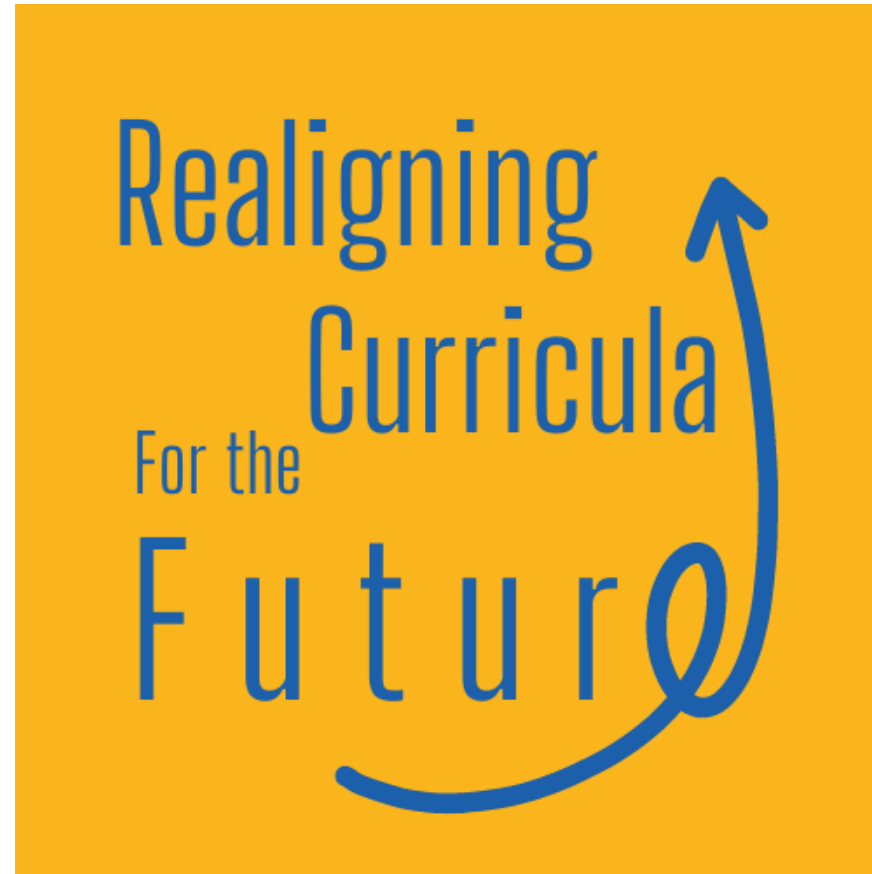

13:00 Q&A and Discussion

13:15 Official end with opportunity to stay on and continue discussing or networking until 13:30

Saying hi – please post in the chat:

What's your name?

Which institution or organisation are you from and what's your role?

Co-creating a Retrofit Teaching Network

Your perspectives

Co-creating a network

- What are the challenges in delivering retrofit teaching and courses?
- Is there a need for a network around Retrofit? Are there other networks that might overlap?
- What topics would you want a network to cover?
- Who would be the audience for the network?

Case study: Borders College, Scotland

Greg Steel, Head of Sector STEM and Sustainable Construction

Case study: Neath Port Talbot College Group, Wales

Jayne Jones, Head of the Business Development Unit

Kathryn Dunstan, Director of Partnerships

Case study: Leeds College of Building, England

Nikki Davis, Principal and CEO

Discussion and Q&A

Conclusions, next steps, and networking
