# Objectives of FBC

---

- To ensure greater understanding of sustainability amongst future employees and consumers and in wider society
- Prepare students to be able to balance the needs of economy, society and environment, and to engage in handling complex, multifaceted problems with interdisciplinary perspectives (key graduate employability skills).
- Share state of the art good practice in sustainability strategy and operations
- Co-create research and knowledge exchange, leveraging the benefit each brings in terms of intellectual, human and financial capital.

# Workstreams underway

---

- Language and communication challenges between Industry and Academia
- Enhancing sustainability-focused Board membership in Universities and Colleges
- Exploring how sustainability literacy in graduates enhances graduate employability
- Alignment of Apprenticeship and sustainability agendas
