

REALIGNING CURRICULA FOR THE FUTURE: INTEGRATING SUSTAINABILITY

TRANSPORT & TOURISM

OVERVIEW

❑ Objectives

- Curriculum design review for sustainable hospitality and tourism
- Integrate sustainability in 21st century pedagogy

❑ Institution

- Top-50 THE Impact Rankings assessing institutions against the UN-SDGs
- School ranked 1st in the UK and 2nd in the world (Shanghai Global)

❑ Programme of studies

- BSc International Tourism Management
- BSc International Tourism Management with Transport

❑ Module aims

- Understand the social, economic and environmental dimensions of international transport planning and policy making
- Apply relevant concepts and theories to meet sustainable goals through local, national and international transport plans & policies
- Improve analytical, communication and team working skills through information gathering, material synthesis and group coursework

INTERNATIONAL TRANSPORT
PLANNING & POLICY
MODULE DESIGN

MODULE DESIGN

Policy making skills

- Embed in module assessment
- Develop through hands-on activities

Contents

- Define sustainability
- International case-studies
- Play climate change game in groups
- Excite students through ongoing projects

Module design

- Dual assessment
- Guest lectures by experts
- Embed a Living Lab approach
- VARK delivery: Consider and reflect

Activities

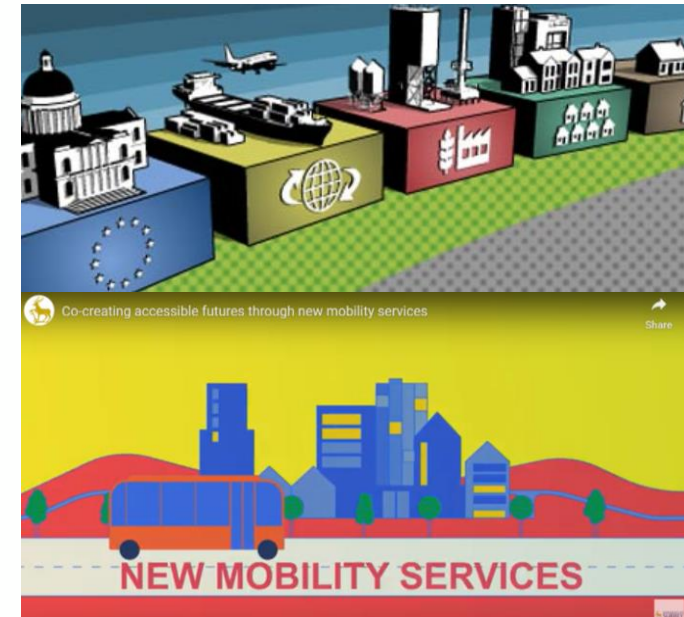

- Site visit to support place-based learning
- Research and draft Policy Brief
- Arrange to present at policy event
- Follow up with policy makers
- Link activities with SDGs e.g. SDG-11

COST ACTION CA16222

WISE-ACT

Wider Impacts and Scenario Evaluation of
Autonomous and Connected Transport

SUSTAINABILITY INTEGRATION

□ Sustainability pillars

- Environmental e.g. air pollution due to travel
- Economic e.g. transport infrastructure assessment
- Social e.g. inclusive transport and tourism

□ VARK options

- Watch project videos
- Listen to sustainability experts
- Read policies and project reports
- Visit transport and tourism hotspots e.g. ULEZ

Goals

11

Make cities and human settlements inclusive, safe, resilient and sustainable

**Institute for
Sustainability**
UNIVERSITY OF SURREY

Next →

IMPLEMENTATION

Barriers

- Student attendance
- Expert availability and event alignment
- Diverse student focus on e.g. transport mode
- Variable student interest about local / global case-studies
- Time and cost limitations
- Technology
- Weather

Suggestions

- Timely activity planning linked with e.g. place-based approaches
- Excite students through real world local / global projects or experts
- Organise site visit to offer hands-on experience

Opportunities

- Increasing student interest about sustainability
- COVID-19 aftermath and desire to travel
- Tourist sites in the area e.g. London
- Surrey + Southeast policy context

NEXT STEPS

□ Tips

- Use all available resources
e.g. projects, technology, experts, events
- Plan – Plan – Plan and have a Plan-B
- Stress the time needs to students
- Engage with LLs e.g. at Surrey
- Check out available L&T material
