

COMMUNITY APPROACHES TO THE GREEN DEAL

An event organised by the Greener Jobs
Alliance in conjunction with South Thames
College and the Furzedown Low Carbon Zone

Thursday, March 15th, 2012
from 1.30pm – 3.30pm

in the Performance Studio, South Thames College,
Wandsworth High St., London SW18 2PP

The Government's Green Deal commences in October, 2012.

- Will it benefit local employers?
- Will it provide work experience and apprenticeships for local students?
- Will it benefit local communities?
- Are local businesses geared up to take advantage of the contracts out there?
- Are you interested in training courses to be able to access future employment opportunities?

Unless there is a co-ordinated approach taken by local authorities, employers, unions, community organisations and training providers the Green Deal will not be able to deliver on the targets.

Come along to this event to get the latest information from:

- The solar industry
- The construction industry
- London Borough of Wandsworth
- Community organisations

See the premiere of a short video showing how South Thames College has been working with local employers and communities to offer work experience in sustainability skills.

There will be a panel discussion with guest speakers from 2.00-3.00pm followed by questions. Either side of this discussion there will be a chance to network and visit the stalls.

Drinks and snacks will be available.

For further information and to register contact Graham Petersen on 07879 492 339 or email graham.petersen@south-thames.ac.uk

The Greener Jobs Alliance is funded by Battersea and Wandsworth Trades Union Council. This project has been funded by a grant from the Learning Skills and Improvement Service.

It is supported by Project Dirt, Wandsworth Environment Forum, Transition Town Tooting and the University and College Union
