Partnerships for ESD: Exploring UWE, Bristol's Integrated Approach to Engaging Audiences in ESD

Partnership and
Engagement

Agenda

Partnership and
Engagement

Introduction to UWE's approach to ESD and session organisation

Jim Longhurst and Georgina Gough (5 minutes).

Round Table discussions Each table to run two 15 minute sessions, allowing participants to visit two tables.

Participants will self-select the elements of UWE's ESD approach that they wish to discuss with key UWE personnel (35 minutes).

Whole group Q&A to draw out the key themes of the UWE approach.

(10 minutes)

Total session time 50 minutes

Aims of the Session

Partnership and
Engagement

UWE has committed to whole institutional ESD engagement.

The ambition is to ensure all programmes and all students have the opportunity to engage with and understand sustainability in the context of their discipline of study.

The whole institution needs to engage with ESD and demonstrate its commitment to this agenda coherently and consistently in order to achieve the university's ambition.

Aims of the Session 2

Partnership and
Engagement

The session will allow delegates to consider the strengths and weakness of the overall approach as well as the individual engagement strategies utilised by UWE in developing and implementing its whole institution approach to ESD.

The session will allow participants to gain an overview of the UWE approach and allow a more detailed engagement with selected elements of the approach determined by the interests of the participant.

Five distinct elements of the strategy will be the subject of discussion opportunities each facilitated by UWE staff centrally engaged in the delivery of ESD. The learning from these experiences is transferable to other institutions seeking to engage with multiple audiences.
