STORK

A recent survey undertaken as part of a **European Union Leonardo Project** on *the local impact of the IET project* was able to establish the following:

- **96%** *of local residents like the growing of food in public spaces*

- **67%** *of local residents collect food and herbs from these public spaces*

- **97%** *local residents say they buy more local food today as compared to five years ago*

- **57%** *of local residents have begun to grow their own food following the example of IET*

(Source: Leonardo IET Project, 2013: Sample of 100 local residents)

Vegetable tourists

Incredible Todmorden
Green-Route

Follow the Green-Route Signs throughout the town

Before you set off

For wheelchair access an alternative path to the canal can be used as marked on the map. The Green-Route is approximately 2km's long. Please take extra care when crossing roads and walking along the canal. Finally, please be considerate of our community and place all rubbish in the bins throughout town.
